It's easy to point your web browser to [www.letsgodeep.com](http://www.letsgodeep.com) and find out who is hitting homeruns on the field. It's a little bit tougher to find out who the biggest slugger is off the field. Sometimes you'll catch a glimpse of a new relationship on SportsCenter. Occasionally Yahoo will feature a new fling. The Consigliere is here to really break down, who is "The Man" when it comes to off day activities.

Russell Martin might still be making rookie mistakes, but he's also been doing some of the same things as his older teammates. Once linked to Brad Penny, among others, Alyssa Milano can now be found cheering on the young Dodgers catcher. The good news for Martin is that she's already had the tour of the clubhouse.

And don't feel bad for Brad Penny. Eliza Dushku is keeping him busy enough that he doesn't have time to worry about his catcher and his leftovers.

Everyone knows that Alex Rodriguez is married, but since his wife looks like a disgruntled department store mannequin, let's give him some credit for his pre-marriage conquests. He may not have been the first one to hit a homerun in the ballpark, but I'm sure that ARod felt pretty comfortable at the plate with Jessica Canseco. The Yankee slugger has also been linked to Sofia Vergara. Her nickname is "Human Viagra", so I think he did okay for himself.

We also have a few pool players that have managed to marry some pretty good-looking women.

David Ortiz can be seen here with his wife Tiffany. Fellow teammate Manny Ramirez landed a hot wife named Juliana. Red Sox rival Jason Giambi also has a pretty lady in his corner named Kristian.

Of course, we couldn't forget about the man that's always in the news. All-Time HR leader Barry Bonds has apparently met a new woman at the gym. It's rare that they are seen together in public but we did manage to track down one picture of her.

All of the above-mentioned players have one very important thing in common.

They all wish that they were Derek Jeter.

When it comes to off the field milestones, Derek Jeter is a legend that will likely never be matched. His dating profile reads like a who's who of the hottest women in America.

When Jeter was still a rookie in baseball, he was already a pro on the dating scene as he began a relationship with Mariah Carey. After he made his mark on the music world, he moved on to Miss Universe Lara Dutta. Pretty soon, it was time to try out the actress scene and he began dating Jordana Brewster, who co-starred in D.E.B.S with Meagan Good. Being careful not to stay in one relationship too long, Jeter moved on to Supermodel Adriana Lima. After things ended with Lima, he hooked up with small screen star Vanessa Minnillo. Why would he not stay with Minnillo for the rest of his life? Because he hit the jackpot and started dating Jessica Alba! While the Consigliere cannot condone this break-up, things did end with Alba and Jeter wasted little time before getting together with FHM star Vida Guerra. While Guerra may be hot, she can't live up to the standards of Jeter's next stop, Jessica Biel a.k.a. The Hottest Woman Alive!

Jeter is no longer with Biel either. Idiot. His latest relationship is with Friday Night Lights cheerleader, Minka Kelly.

Now the next time you see the Yankees losing to the Red Sox and Jeter is sitting in the dugout grinning ear to ear, you'll know why.
